

SOLAR WATER PUMP—STANDALONE SYSTEM

- ☀ **Efficient Operation for Water Pumping**
- ☀ **Suitable for remote areas where Grid is not available**
- ☀ **Battery-less operation**
- ☀ **25 Years Linear Power Output Warranty for Solar Panel, 3 Years for Solar Variable Frequency drive**
- ☀ **Run your pump approx. 8 hours a day**
- ☀ **High throughput; store excess water in tank and utilize in variable timing according to utility**
- ☀ **High Quality Balance of System Components, Advanced Design Methodology.**
- ☀ **Auto Start/Stop operation on Sun Rise/Sun Set**
- ☀ **IP65 DBs, Inverters; Chemical Earthing; Surge Protection Device; Individual Fuse for DC Line;**
- ☀ **Mounting Structure based on design MS Painted/ Galvanized Steel**
